Solution

Our Commercial Vessel insurance is designed to provide a range of coverage options for operators of commercial vessels. Physical damage cover for vessels in-harbour, offshore energy support, tourism, and passenger charter vessels. Includes plain English policy wording or Institute Clauses and boat building risks.

Provides comprehensive coverage for businesses that are primarily involved in boat retailing and yacht broking. It covers all stock owned or on consignment. The policy includes material damage to land-based and water-based stock, and covers, demonstrations, testing of vessels, exhibitions, delivery, and private use by the insured or employees.

Marine Wharves, Piles, Jetties & Pontoons Insurance is a specialised policy that provides comprehensive cover for over water structures designed for berthing, storage, and service provision to watercraft, including fuel, water, power, and waste facilities. The term 'Marina' includes supporting piles, infrastructure, over water tanks, and ancillary tools and equipment. Wharves, piles, jetties, floating breakwaters, and pontoons are also covered under this definition.

Accidental damage cover including breakdown and mismanagement of refrigeration machinery, plus optional legal defence costs. Cover for legal defence costs is only available for carriers operating under insurer approved contracts.

Solution

Comprehensive multi-modal cargo coverage for importers, exporters, and local producers. Covers static risks incidental to transit and worldwide movements. Includes non-containerised, bulk, break-bulk, RO/RO, specialist, and temperature-controlled/perishable cargoes.

Provides cover for the physical assets and liabilities of boating industry businesses nationwide. Cover can be arranged under a Business Package or an Industrial Special Risks wording subject to underwriting criteria.

Provides material damage cover for construction of all vessels on which construction is commenced during the policy period, and an option to include Collision Liability during sea trials and testing.

With responsibility for watercraft and equipment in their care, custody and control, as well as the potential for claims by third parties for injury, or damage to their property arising from insured activities, this is an essential cover for boat and ship repairers. This policy also provides liability cover for marina owners and operators, boat and yacht clubs, boat dealers, boat builders and other businesses where boats are left in their care.
